## Work Experience

### Getir

*Team Lead*

*March 2022 - Present*

Leading and developing multiple Franchise and Workforce related projects to help the company grow their business in existing markets, which affects hundreds of warehouse employees, couriers and pickers to handle their day-to-day life with ease.

### Chegg

*Senior Software Engineer*

*July 2020 – March 2022*

Developing and leading Marketing (SEO) and Legal pages, by converting high-traffic pages from legacy stack to the latest one. Improving the experience of millions of students visiting the chegg.com to buy subscription packs for e-learning and physical copies.

### Nagarro

*Associate Lead*

*December 2018 - July 2020*

Developing and leading Revenue Management application for a high-profile client which would cater daily business needs like order management, recurring payments, report generation etc.

### R Systems International

*Senior Software Developer*

*April 2018 – December 2018*

Developing an e-commerce website which allows buying e-cards, gift-cards, invite-cards etc including payment gateway.

## Planetcast Media Services

*Software Developer*

*May 2017 – April 2018*

Developing multiple in-house softwares handling satellite/dish streaming, monitoring, live charts/logs, and timeline management. Managing proper syncing of audio/video/subtitle/logo for each show that would be streamed by the partner channel; along with reading media hardware meta information using MIB.

## Richa Industries (company dissolved)

*Software Developer*

*September 2016 – April 2017*

Development of data feed modules in existing inhouse PEB/Texting software, which helped warehouse run their manpower and machineries in an efficient manner.

## Cisoft Technologies

*Developer and Tester*

*May 2014 – August 2016*

Supporting and testing inhouse ERP software that be supplied to multiple schools and colleges. Generating live reports and dynamic timetable; including fees/library/payroll management.

---

## Open-Source Contribution

### StorageX

*Author and Maintainer*

*Since 2022*

An all-in-one localStorage/sessionStorage/cookie manager browser extension for Chrome/Edge/Firefox browser.

### OrangeFox Recovery (website)

*Author and Maintainer*

*Since 2019*

I'm actively maintaining [orangefox.download](https://orangefox.download). This is a custom recovery application for android enthusiasts. Created this project from scratch, which supports recovery image download, donation contribution, and internalization with the help of community translation service.

---
