Rahul Kurup

Frontend-heavy / Full Stack Developer | 9.5 years' experience

+91-8368827599 • rahul.kurup@hotmail.com • https://www.linkedin.com/in/rahulkrp • Delhi

Summary

- Experience in leading global cross-functional teams, while delivering projects from inception to completion.
- Nurturing and developing teammates across all levels (junior, mid, senior), while establishing clear roadmaps and guidelines
- Proficient in crafting products from ideation to initial launch, and effectively scaling them from that point to serve a larger user base.

Skills

React • JavaScript • Typescript • Angular • Next.js • Node.js • Nest.js • MongoDB • GraphQL • SQL • AWS • Docker • Razorpay • Stripe • Firebase • C# • Java • Leadership • Mentorship • Team management • Application scaling • Micro-frontend

Experience

Getir – Fast delivery E-commerce

Technical Lead   03/2022 - Present

- Led the development of a Franchise project that empowers hundreds of warehouses to streamline their daily operational tasks.
- Championed the development of a Workforce Hiring project, enabling partner country-branches to efficiently recruit couriers / riders and store assistants.
- Executing the migration of a legacy tech stack to a new Micro-frontend architecture that ensures long-term scalability.

Chegg – E-Learning platform and Subscriptions

Senior Software Engineer   07/2020 - 03/2022

- Enhanced chegg.com for millions of students by improving performance, functionality, and accessibility during migration.
- Took charge of developing and guiding Marketing (SEO) and Legal pages, overseeing the migration of high-traffic pages from older technology to the latest stack.
- Developed an automated solution for the product team to easily make their own product and landing pages without having to rely on engineers.

Nagarro – Revenue Management ERP, Comprehensive Reporting

Associate Staff Engineer   12/2018 - 07/2020

- Led the development and management of a Revenue Management application tailored for a high-profile client.
- Oversaw the implementation of features satisfying crucial daily business requirements, including order management, recurring payments, and report generation.
- Delivered a comprehensive solution that effectively streamlined business operations and optimized revenue management processes.

Planetcast Media Services Limited – Streaming, OTT, Transcription, Video Timelines

Software Developer   05/2017 - 12/2018

- Created multiple in-house software applications for satellite/dish streaming, monitoring, live charts/logs, and timeline management.
- Ensured seamless synchronization of audio/video/subtitle/logo for partner channel shows.

Cisoft Technologies – ERP Software, Reporting System, Payment Gateway

Software Developer   05/2014 - 04/2017

- Contributed to testing and development of in-house ERP software for schools and colleges.
- Automated live reports, dynamic timetables, and management of fees, library, and payroll.

Open-source contribution

StorageX

Author and Maintainer   11/ 2022 - Present

- An all-in-one localStorage/sessionStorage/cookie manager
- Browser extension for Chrome/Edge/Firefox browser.

Orangefox Recovery (website)

Author and Maintainer   07/2020 - 03/2022

- I'm actively maintaining https://orangefox.download. This is a custom recovery application for android enthusiasts. Created this project from scratch, which supports recovery image download, donation contribution, and internalization with the help of community translation service.
